Fall 2016

FROM THE CHAIR

A Letter From Drs Monika & Laniel Razdolsky

As we arrive at our one-year anniversary at Lake Forest Dental Associates, we would like to thank you for making this such a wonderful and exciting experience for us. It has been an honor and pleasure to work with you and serve your family's dental needs. We appreciate your continued support and are grateful to have so many amazing patients. Without you, our practice would not be possible.

The Lake Forest Dental Associates News Bites is our opportunity to update you on all that we have been doing to continue to make our office the best. We are excited for this first issue, and really look forward to sharing lots of great happenings going forward.

This past year we have been working hard on updating the office with new equipment, such as state-of-the-art sterilization equipment, electric headpieces for a quieter and smoother drilling experience, and a new Drufomat scan for more accurate and comfortable in-mouth appliances. In addition, we continue our efforts to "go green" by implementing a new recycling program which you can read more about later in this newsletter. We have also extended our hours to accommodate many of your very busy schedules -- offering evening and Friday appointments. We strive to continue to be the best, and to be a top of the line facility where you feel at home getting your dental work completed.

We are so proud to be back in Lake Forest and to be involved in the community we serve. We are happy we could visit various preschools in the area during Dental Health Month and teach children about the importance of good oral health, brushing their teeth and cavities. Our community outreach has included support and participation with the Venus De Miles Run / Bicycle ride and the GLASA Run in Lake Forest. We also hosted an open house in July with the support of LFLB Chamber of Commerce where we were able to show off our newly-refurbished office and amazing staff. Best of all, it was awesome to see so many familiar smiles as we marched in the Lake Forest Day Parade. We can't wait to continue to support these amazing events and be a part of the community we love.

In conclusion, we know dental emergencies do not always happen between the hours of 8am-5pm. We do not live far from the office and it is never a bother if you give us a call. We are always here for you, for any dental emergency. Please do not hesitate to call or text us at our emergency phone number (847) 878-5872. Look forward to seeing you soon!

Going Green

Going chartless and recycling paper waste is an important element in our practice's new sustainability plan. Since January we have not only been helping the environment, but also boosting security of your vital patient information by going green.

Going paperless in our practice means we first have to digitally secure your patient information. We do this through implementation of our

practice management software that saves paper simply by recording your information electronically each time you visit. This also allows us to recycle all antiquated paper forms of patient information using the secure shredding services of Shred-It. Through this program, they

Continuing Education for Better Treatment Options

Studies indicate patients treated by medical professionals who receive ongoing education experience significantly greater benefits. At LFDA, we are strong proponents of this approach to treatment in order to better serve you.

In September, Dr. Razdolsky's father, noted Buffalo Grove Orthodontist, Dr. Yan Razdolsky held his Fourth Annual Update and Seminar. The program featured a distinguished panel of industry professionals who discussed the latest in dental implant technologies and Caries Management by Risk Assessment (CAMBRA), the evidence-based approach to both prevention and treatment of tooth decay at the early stages. We are thankful to have been able to participate in this program and look forward to implementing many of the ideologies learned in the program as part of our ongoing services and treatments.

Another First!

The Razdolsky's happily celebrate another one-year anniversary with the birthday of their son, Caleb. The family is settling well in our community, and Caleb really enjoys his days at Lake Forest Montessori.

Community Outreach

Our team members really love getting involved in the community. Here they are at the Lake Forest Day Parade. What fun to see so many familiar smiles along the parade route.

Our LFDA family also participated in

securely destroy all the documents and provide a certificate of destruction. The shredded paper is then transported to a recycling paper mill that grinds the shredded documents into a pulp that is separated, screened for impurities, bleached and mixed with fresh pulp to manufacture new paper products.

Just in the initial phases of the program, our practice has already saved 2 trees! In fact, did you know that a single ton of recycled paper can yield significant environmental benefits including reducing carbon emissions, saving trees and cutting back on water use? Let's all go green!

and your child's teeth. That's why we will make your child a FREE mouthguard with a scheduled appointment. Call our office for more details.

the GLASA Run and an open house with the LFLB Chamber of Commerce, both shown here at left. We are so proud to be a part of this community and really look forward to future events where we can connect more with the families we serve.

Thank you to all our patients for coming out and showing your support!

Druformat Scan Mouthguards

Back to school for many means, back to sports. Did you know most boil and bite, or store bought mouthguards are ineffective? At Lake Forest Dental Associates, we want to protect you
